

KOBE CHRISTIAN BALATBAT

kobebalatbat.va@gmail.com | +63 921 405 5369 | Quezon City, Metro Manila, PH | Remote-Ready

PROFESSIONAL SUMMARY

Real Estate Operations & Mortgage Associate with a proven track record of optimizing residential and commercial transactions through AI-driven workflow automation. Expert at accelerating loan origination, managing high-volume borrower files, and coordinating end-to-end property transactions. Skilled in CRM pipeline management, master stock list consolidation, off-market property sourcing, and broker outreach within fast-paced, remote environments.

PROFESSIONAL EXPERIENCE

Property Research Associate & Real Estate Operations Specialist

Your Virtual Partner (Remote) July 2026 – Present

- Reviewed multiple stock lists from agents, developers, and internal databases; cleaned, standardized, and consolidated data into a single, accurate master stock list for the sales team, regularly updated to remove sold/off-market properties and add new listings.
- Conducted targeted property research based on specific client briefs, covering ROI analysis, zoning regulations, comparable sales (comps), upcoming developments, and new project pipelines to deliver actionable sales intelligence.
- Gathered intel on market trends, recent sales data, and new project pipelines to support deal sourcing strategies and provide the sales team with timely, competitive market insights.
- Sourced off-market opportunities by proactively calling and emailing agents, builders, and developers to verify stock availability and request exclusive or upcoming listings.
- Built and maintained a structured database of reliable industry contacts for future sourcing, enabling consistent and efficient broker and developer outreach
- Designed professional, branded property brochures using Canva and client templates for both residential listings (homes and units) and commercial assets (retail, office, industrial), incorporating key property specs, high-quality images, floor plans, and compelling copy.
- Coordinated 8+ simultaneous residential and commercial transactions end-to-end, maintaining pipeline visibility for 60+ active leads in GoHighLevel with real-time deal stage updates and weekly status reports to support broker decision-making.

Real Estate Operations Specialist

Private Real Estate Brokerage (Confidential) (Remote) Aug 2024 – Nov 2025

- Coordinated buyer and seller transactions end-to-end with agents, lenders, and title companies - tracking milestones in GoHighLevel across 60+ active leads with real-time deal stage updates.
- Cleaned, deduplicated, and consolidated property data from multiple agent and developer sources into a single master stock list, regularly updated to reflect sold and off-market changes.
- Proactively called and emailed agents, builders, and developers to verify stock availability and secure upcoming or exclusive listings, maintaining a structured contact database for ongoing outreach.
- Drafted client and vendor communications including appointment confirmations, follow-up sequences, and transaction status updates to keep all parties aligned at every stage.
- Built SOPs for listing coordination, broker outreach, and data management workflows, reducing reliance on verbal instruction and enabling consistent team execution.
- Identified bottlenecks in the transaction coordination process and implemented targeted improvements that cut weekly reporting turnaround time for the sales team.
- Handled listing admin tasks including preparing branded property brochures, organizing transaction documents, and scheduling showings and closings.
